

When the lookouts reported "Nevadan off Koko Head," at 12:50 yesterday afternoon they had not counted on the burst of speed that Captain Lyon of the Texan of the American-Hawaiian line had up his sleeve, for it was some twenty minutes before the phones began to jingle again and the report was changed to "Texan, off Koko Head" as the steamer came closer so that her distinguishing marks might be seen. The big freighter left San Francisco on the 13th of July at 6:36 p. m., just four hours after the Nevada of the same line. The Texan saw nothing of the other boat on the run down. The mail was put on the Nevada, the authorities believing that she would be the first boat in. But five sacks, the accumulations of the four hours after the Nevada sailed, came on the Texan. The latter ship came out from New York in good time, stopping at Coronel for coal, at San Diego, where 2,100 tons of freight were discharged and at San Francisco. At the last named port about 8,000 tons of cargo were put out. Fine weather was experienced on the run from San Francisco. The Argyll was sighted last Sunday, bound up. The Nebraskan was also met as were two schooners bound north. In the Texan's hold is a general cargo of about 2,000 tons for Honolulu and Kahului. There are 150 tons of steel rails for Honolulu and 250 tons for Kahului. The steamer will load about 7,000 tons of sugar here, sailing Wednesday evening. At Kaaunapali she will remain two days, taking on 1,400 tons and at Hilo she will load 2,500 or 3,000 tons, sailing thence for Delaware Breakwater. It is reported that she will be converted into an oil-burner this winter.

HARBOR BIDS OPENED.

Bids for the improvement of Honolulu harbor were opened at the office of Lieutenant Slattery, engineer of the Young Building yesterday noon. There were seven bids, ranging from that of Cotton Brothers—43 cents per yard—to that of the San Francisco Bridge Company, which bid 24.87 cents, and will, without doubt, receive the contract. All the bidders were represented at the opening of the bids yesterday, and there was great interest in the result. John McCullen, general manager of the victorious company, was present and certified as to the genuineness of his company's bid. The company has six dredgers on the Atlantic coast, seven on the Pacific coast and two at Manila, so it will find no trouble in carrying out the contract. Expert men will be brought from the coast to be in charge of the work, but practically all the laborers will be secured here. Gus Desha will be in charge of the work. Lieutenant Slattery will forward the bids to Washington with a recommendation that the San Francisco company's bid be accepted, and without

doubt it will be approved. This contract covers sections A and B of the harbor project, the cutting off of the lighthouse point and the dredging of the channel to 35 feet. The preliminary estimate of the amount of material to be removed is 1,500,000 cubic yards, and this at the Bridge Company's figures would cost the government \$363,132.00. It is stated that private investigations have shown the amount to be removed to be much less than stated.

The bids received were as follows: M. C. Harris, 31 cents. Hawaiian Dredging Co., 26 1/2 cents. San Francisco Bridge Co., 24 87/100 cents. Cotton Bros., 43 cents. North American Dredging Company, 25 9/10 cents. Lord & Belser, 29 cents. Pacific Coast Dredging and Reclamation Co., 34 cents.

SCHOONER SPRINGS LEAK

Captain Belleson and the officers and crew of the schooner Cecilia Sudden are thanking their lucky stars that they are not now reposing in Davy Jones's locker at the bottom of the deep blue sea. Drifting along westward from Lihou with calm and baffling airs, the schooner ran into a terrific storm nine days ago when some 800 miles east of this port. It is estimated that the wind blew ninety miles an hour at times and all on board thought that the ship was about to founder. To add to the danger the ship sprung a leak and the men were at the pumps almost all the way to Honolulu. The Cecilia Sudden has as cargo 900 tons of nitrates consigned to the Hawaiian Fertilizer Co., Ltd. It is thought that the cargo is uninjured. The schooner is a comparatively new vessel and this is her first visit to this port. She was built two years ago at Whatcom, Washington.

CORONADO SAILS TODAY.

The well-known barkentine Coronado will sail for San Francisco from the Oceanic dock at 10 o'clock this morning. As cargo she will take 22,900 bags of sugar and some general merchandise. A number of passengers will go up on the popular boat. Among them are Mr. and Mrs. King, Miss King, Mrs. T. Chapman and son, Miss J. Mills, Mr. A. McLennan, Mr. Melville Larkine and Mr. Herbert Erskine.

SHIPPING NOTES.

The steamer Ke Au Hoi sailed for Kauai ports yesterday afternoon. A large steamer is expected here with coal from Japan within the next few days. The transport Sherman arrived at San Francisco yesterday with troops from Manila and the artillery companies from Camp McKinley, Honolulu. The Toyo Kisen Kaisha's steamers Rohilla and Rosetta, which are being employed by the military authorities

as hospital ships, have been sold to the BiJo Steamship Company, Owari province. The Nichi Nichi says that the vessels are still in Government service. —Kobe Herald.

The steamer Nebraskan of the A. H. line scheduled to leave Puget Sound for Honolulu via San Francisco July 28th will cut out San Francisco this trip and come direct to Honolulu, leaving Puget Sound on August 7th. The Arizona will leave San Francisco for Honolulu August 5th, taking the Nebraskan's place in the schedule for this trip.

NEW COMMITTEES

(Continued from Page 1.)

with an assertion by Adams that he had heard long term prisoners from the other islands were to be brought to Oahu Prison, and if they were there, would be plenty of convicts to work in the quaires.

A special committee consisting of Moore and Adams was appointed to wait on Auditor Fisher and settle the question as to the proper forms to be used for warrants, bills, books, reports, etc.

Then the Board adjourned until next Thursday evening at 7:30.

RECOMMENDED BY DEALERS EVERYWHERE.

Mr. M. Links, a storekeeper at Carcoar, N. S. W., Australia, says: "I never fail to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy, because I know it is good." You make no mistake when you buy this medicine. Dealers all over the country will tell you the same thing. Sold by Benson, Smith & Co., Ltd., agents for Hawaii.

A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a breakdown, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is INCREASED VITALITY—VIGOR—VITAL STRENGTH AND ENERGY to prove that as night succeeds the day this may throw off these morbid feelings, and experience be more certainly secured by a course of the celebrated life-reviving tonic

THERAPION NO. 3

than by any other known combination. So surely as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored, the EXPIRING LAMP OF LIFE LIGHTED UP AFRESH, and a new existence imparted in place of what had so lately seemed worn-out, "used up" and valueless. This wonderful medicine is purely vegetable and innocuous, is agreeable to the taste—suitable for all constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this never-failing recuperative essence, which is destined to cast into oblivion everything that had preceded it for this widespread and numerous class of human ailments.

THERAPION

Is sold by principal Chemists throughout the world. Price in England 2/6 and 4/6. In ordering, state which of the three numbers required, and observe that the word "Therapion" appears on British government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

UNITED STATES CUSTOMS SERVICE, Port of Honolulu, Hawaii, July 12, 1905.—Notice of Seizures: In accordance with the provisions of Article 1567, C. R. 1899, notice is hereby given that on June 5, 1905, at Honolulu, Hawaii, I, E. R. Stackable, Collector of Customs, seized for a violation of section 32 of the act of July 24, 1897 (Seizure No. 1138) two (2) cases containing 160 lbs. Ginseng Root said to belong to Yi Chung Klum. Any person claiming the said Ginseng Root must appear and file with the Collector of Customs his or her claim to the same within ten days from the date of the publication of this notice. E. R. STACKABLE, Collector of Customs. 7154—July 13, 17, 21.

IN THE CIRCUIT COURT OF THE FOURTH CIRCUIT, TERRITORY OF HAWAII, AT CHAMBERS—IN PROBATE.

In the Matter of the Estate of Annie T. K. Parker, a Minor.

Order of Publication and to Show Cause on Guardian's Application to Sell Real Estate.

On reading and filing the petition of Alfred W. Carter, the guardian of the property of Annie T. K. Parker, a minor, praying for an order of sale of certain real estate belonging to his said ward, which said real estate is situated within the Fourth Judicial Circuit of the Territory of Hawaii, and consists of the following described pieces and parcels of land:

1.—Land contained in Grant 3142 to J. P. Parker in Kaaoki, Hamakua; area 125 acres.
2.—The land in Paauhau, Weha, Makakuolo, Keahua, and Kalapa, within the boundaries of the lease of I. P. Parker and S. Parker to W. J. Irwin & Company, dated July 1, 1886, of record in Liber 101, page 175; total area, 1074.50 acres.
3.—The lands of Weha, Makakuolo and Keahua, adjoining the land before described; area 745.1 acres.
4.—One-half interest in the Kalapa Crown Land held under lease known as General Lease 101, on file in Public Lands Office, expiring July 1, 1916; area 1005.6 acres.
5.—The land in Kalapa described in L. C. A. 8493 to Kuhea, 10 acres.

And set forth certain legal reasons why such real estate should be sold, to-wit, that it appears that it would be for the benefit of the said minor that a portion of her real estate should be sold and the proceeds thereof should be invested in some productive stock or other investment.

It is hereby ordered that the heirs and next of kin of said ward and all persons interested in the said estate appear before this court on Saturday, the 12th day of August, A. D. 1905, at 10 o'clock a. m., at the court room of this court in South Hilo, Island and Territory of Hawaii, and then, and there show cause why an order should not be granted for the sale of said estate.

And it is further ordered that a notice of this order be published for at least three consecutive weeks before the said day of hearing, in the Hilo Tribune, a newspaper published in Hilo, and the Pacific Commercial Advertiser, a newspaper published in Honolulu, the last publication to be not less than ten days previous to the time therein appointed for said hearing.

Done at South Hilo, Island and Territory of Hawaii, July 1, 1905.

(Signed) CHAS. F. PARSONS, Judge of the Circuit Court of the Fourth Circuit.

Attest, (Signed) A. S. LE BARON GURNEY, Clerk.

(Seal) CARL S. SMITH, Attorney for Petitioner. 132

CHAS. BON, Secretary. 7169

THE NEW GAS COMPANY AND ITS PIPE EXTENSION

Affairs with the Gas Company are in very good shape indeed according to those interested, and the contractor who has been putting in the works is about ready to turn everything over to the company.

When seen yesterday Mr. W. R. Castle expressed great satisfaction at the way things were going with the new corporation.

"The community is using a large amount of gas already," said Mr. Castle, "and seems more than pleased with it. The gas gives a large fine white light which oculists claim is better for the eyes than the electric. While we have laid between ten and eleven miles of pipe already, we have stopped temporarily while awaiting the arrival of more pipe, and the whole force is engaged in making connections. Of these over 150 have already been made, and we have contracts for as many more. These will be put in as fast as we can get the men to work on them.

We expect a young lady from the States in a short time, who is not only a demonstrator, but a practical cook. On her arrival she will start a cooking school and give instructions in the use of the gas range and show how gas may be economically used in cooking.

"The gas mains already laid cover the downtown section pretty thoroughly. From the plant which is situated in Twile, a main runs to King street

along the latter to beyond the Wai-kiki road. Another main turns from River street into Hotel, along Hotel to Union, then through to Beretania and out the latter as far as Pensacola street. Another branch runs up Lunaliilo street into the Makiki district and up Anapuni street.

Still another runs up Fort, then up Nuuanu to Bates street and down the latter. Between these various mains cross streets are supplied with gas through laterals running through lanes and blocks.

"The Planter's Experiment Station in Makiki has been connected with the main, and gas is used there, as well as in a number of downtown places. Several of the latter use gas for power, among them being the newspaper offices. Many of the Japanese and Chinese stores make use of gas for illuminating purposes, and where it is used for power, it compares most favorably with gasoline, while at the same time it is handier and better.

"The young lady demonstrator who will arrive here shortly will be at the main office of the gas company, but she will also go from house to house where gas is used, showing how it may be used economically for cooking purposes.

"With all its other advantages it is further used for water heating and in this regard seems to have given complete satisfaction, as well as in other ways.

"While the price for gas per thousand is moderate now, it will be further decreased as the demand for it becomes greater."
